We are Strongly in Quality, Safety & Time

Aquilas Construction is a building construction company, which was established in 2022. The most promising aspect of the company is that it has a team of very experienced persons handling various aspects of the construction process.

WHY CHOOSE AQUILAS

They bring their wide level of knowledge gained from their long experience into every project, and are instrumental in turning each project into successful milestones. Their expertise helps in meticulously planning, guiding, coordinating, executing and ensuring timely delivery of every project. The company believes in delivering every project on time without compromising on quality & workmanship.

Our mission is to build constructions that are absolutely cost effective and to the complete satisfaction of the customers. Our activities are all geared to achieve total satisfaction of the customers and towards this end we use all our expertise and skill in achieving the same.

We believe in cost-effectiveness both for the client and us, and therefore we are committed to speedy action and execution.

We are doing the Contracts like Item Rate Contract, Lump Sum Contract, Unit Rate Contract, Design and Build Contract etc.

We cater to the needs of our customers as all work is primarily to meet the desires or requirements of our customers.

All our project work has the assurance of total dedication, commitment, quality, safety and aesthetic appeal.
